So far, none! Our goal is to bootstrap till we reach 10 orders a day and then start looking for an investment. Having said that, it's never too early to start building relationships with investors!

Part of Sendgrid Accelerate Startup Program

PARCERIAS

We acquired a partnership with a warehouse that collects fruits and vegetables from the farmers. We collect the items for the price that is 40-50% under the retail price, which allows us to have a healthy margin.
